The British in Interwar Germany Aug 20 2022 The British in Interwar Germany analyses the British presence in Germany from the armistice until the end of the Rhineland occupation in 1930. It looks at British involvement in the Rhineland, Danzig, Upper Silesia, Schleswig and East Prussia and on the inter-Allied Control Commissions (IAMCC), which were supervising German disarmament. Drawing widely on a range of primary sources, David Williamson explores the problems facing British military and civil officials, their attitudes towards the Germans and their relations with their allies - particularly the French. The book also examines the everyday lives of the British soldiers and administrators in Germany and their interaction with the Germans, with particular attention being paid to the city of Cologne and the British colony that developed there. This new edition brings David Williamson's study fully up-to-date and now contains a greater coverage of the relevant social history, as well as maps, illustrations and a useful glossary. The British in Interwar Germany will be of great interest to students and scholars of Weimar Germany and Britain and Europe during the interwar years.

Dynamic Business Law: Summarized Cases Jun 25 2020 Dynamic Business Law: Summarized Cases, 1e is appropriate for the two-term business law course. Emphasis on the BUSINESS in business law. Dynamic Business Law emphasizes the tie of legal issues back to the core business curriculum. This will help both students and faculty. Faculty need to know how this is integrated as they are constantly 'defending' the inclusion of this course in the business curriculum. And students need to understand how the concepts tie to their future business careers. Emphasis on TEACHING. Many professors teaching this course are attorneys first and academics second. They do not have a lot of time to prepare or think about how to apply this information effectively for their business students. Dynamic Business Law contains a helpful instructor's manual, particularly for the many adjuncts teaching this course. Emphasis on CRITICAL THINKING. Neil Browne, one of the co-authors of this text, has written a successful text on critical thinking. His framework is included in Dynamic Business Law as well – to help students learn how to frame and reframe a question/issue. Critical thinking questions are also included at the end of each case, to further tie in this component.
