Action for roads Sep 21 2020 The road network is vital to our nation and a crucial part of the national transport system. The challenge is both to make best use of the network we have, and also to plan ahead to help the economy grow. The Department has just announced the biggest-ever upgrade of our motorways and key A roads. By 2021, spending on road enhancements will have tripled from today's levels, and we will have resurfaced 80% of the network. This white paper presents the next steps as being to: invest in 52 schemes, including 16 new projects; start construction on five major road schemes by April 2014; begin feasibility studies on five problem hotspots on the strategic road network, prioritising solutions; continue with route based strategies for the whole network, to build a next generation of improvements and interventions; consult later this year on turning the Highways Agency into a publicly owned strategic highways company; publish a draft national policy statement for national networks in 2013, with the aim of formally designating the document in 2014; introduce legislation in 2014, providing a stable funding basis for investment and legal powers for the new Highways Agency; and produce the first Road Investment Strategy later this parliament, guaranteeing roads investment to 2021

National policy statement for waste water Apr 16 2020 Waste water treatment infrastructure is essential for public health and a clean environment. Demand for new and improved waste water infrastructure is likely to be driven by the following: (i) More stringent statutory requirements to protect the environment and water quality; (ii) Population growth and urbanisation; (iii) Replacement or improvement of infrastructure; (iv) Adaptation to climate change. This National Policy Statement (NPS) sets out Government policy for the provision of major waste water infrastructure as defined in the Planning Act 2008 (ISBN 9780105429081). It will be used as the primary basis for deciding development consent applications for waste water developments that fall within the definition of Nationally Significant Infrastructure Projects (NSIP). The publication is divided into four chapters and four annexes: Chapter 1: Introduction; Chapter 2: Government policy on need for waste water infrastructure; Chapter 3 Factors for examination and determination of applications; Chapter 4: Generic impacts.
