The Magazine: The Complete Archives Sep 09 2021 This ebook collects the nearly 300 stories that first appeared in The Magazine, an independent biweekly periodical for narrative non-fiction. It covers researchers "crying wolf," learning to emulate animal sounds; DIY medical gear, making prosthetics and other tools available more cheaply and to the developing world; a fever in Japan that leads to a new friendship; saving seeds to save the past; the plan to build a giant Lava Lamp in eastern Oregon; Portland's unicycle-riding, Darth Vader mask-wearing, flaming bagpipe player; a hidden library at MIT that contains one of the most extensive troves of science fiction and fantasy novels and magazines in the world; and far, far more.

PC Mag Jul 28 2020 PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology.

The Borrowed Souls May 18 2022 The afterlife is not at all what Jack Duffy had expected. A failed suicide attempt launches him into a world that continually tests his ability to forgive and forget. With each new soul that he's entrusted to collect, he learns more about himself and his horrific decisions in life. Through the tutelage of his befriended trainer, Jack will be compelled to make decision after decision about who gets to live and who will lose their soul. *The Borrowed Souls* concludes when Jack comes to a crossroads: continue on with his eternal commitment, or forfeit the tremendous power that has been bestowed upon him. Forever.

The Silver Seed Feb 24 2023 The biggest terrorist plot in human history in the heartland in the U.S.A. Set on the Mississippi and Illinois Rivers, terrorists work to assemble the largest weapon of mass destruction to be set off in St. Louis harbour on the 4th of July. Jesus Christ is forced to bring forth the new world order.

A Country is Not a Company Dec 13 2021 Nobel-Prize-winning economist Paul Krugman argues that business leaders need to understand the differences between economic policy on the national and international scale and business strategy on the organizational scale. Economists deal with the closed system of a national economy, whereas executives live in the open-system world of business. Moreover, economists know that an economy must be run on the basis of general principles, but businesspeople are forever in search of the particular brilliant strategy. Krugman's article serves to elucidate the world of economics for businesspeople who are so close to it and yet are continually frustrated by what they see. Since 1922, Harvard Business Review has been a leading source of breakthrough management ideas-many of which still speak to and influence us today. The Harvard Business Review Classics series now offers readers the opportunity to make these seminal pieces a part of your permanent management library. Each highly readable volume contains a groundbreaking idea that continues to shape best practices and inspire countless managers around the world-and will have a direct impact on you today and for years to come.

Cowboy Strong Apr 16 2022 Going Down Fighting Ty Covington likes to keep things as uncomplicated as possible. By day, all that matters to him is his horse and winning in the rodeo ring. At night, all he wants is a deliciously hot, no-strings affair with his rival, Kenzie Malone. Then everything changes in one heart-stopping split second. The accident should have killed both Ty and his horse. Instead, they're both on the road to a hard recovery--but only thanks to Kenzie's family connections and fortune. Which means he owes her. He owes a woman who is both everything he despises and his deepest desire. As need--hungry and demanding--takes them both over, Ty knows that this time, uncomplicated isn't an option. And this cowboy always pays his debts...

Los Angeles Magazine Jun 06 2021 Los Angeles magazine is a regional magazine of national stature. Our combination of award-winning feature writing, investigative reporting, service journalism, and design covers the people, lifestyle, culture, entertainment, fashion, art and architecture, and news that define Southern California. Started in the spring of 1961, Los Angeles magazine has been addressing the needs and interests of our region for 48 years. The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian.

Dr. Dobb's Journal Mar 04 2021

Dragons & Dinosaurs Jul 08 2021 Jim is a small-town police officer, proudly doing his duty like any law enforcement agent would. When a call comes in reporting the grizzly deaths of several animals from a local farm; Jim begins an investigation that will change his life forever. After crashing his vehicle following a bloody trail in the woods, he wakes up and realizes that he is not only lost, but he's in a dangerous land where dragons, dinosaurs and magic exist. He relies on his training and survival instincts to cheat death a few times before rescuing and befriending a small dragon. As time goes on, Jim's adventures become grander in scale and he must eventually face the fact that he wasn't brought to this world by accident. In this world, the power is out of balance. An evil wizard and his minions control most of the land. The dragons are ready to bring the fight to them; but they are looking for a leader . . . a hero. Can Jim be this person?

Shaping Things Oct 30 2020 A guide to the next great wave of technology -- an era of objects so programmable that they can be regarded as material instantiations of an immaterial system.

Orchestrating Supply Chain Opportunities Sep 02 2023 Efficient planning and superior execution against clear objectives is the way companies operate best. For many companies, the planning process is carefully orchestrated, objectives are set, budgets are negotiated, resources are allocated, and then it's up to the organization to execute. But what happens when the unexpected occurs? Say, an event occurs that throws the status quo into turmoil. What if your business declines by 40% in 1 month, what do you do? Conversely, what if your demand spikes by 50% in just a few months, what then? Suppose a natural disaster happens, or a new technology creates a significant, but unplanned opportunity? We call these events 'stretch opportunities'. This book will focus on strategic thinking and tactical examples of how best to prepare for such events. We will outline common themes across all such challenges. We will introduce three key management concepts: Flexibility, Agility and Real Options. We also include a specific chapter on how to structure supply chains to capitalize on stretch opportunities and we provide specific tactical frameworks to build in agility, flexibility and real options into a supply chain. We will end with a checklist that managers can use to ensure that the right questions are asked in developing supply chains so that the ability to "surge" at profitable opportunities is nourished.

CD Review May 06 2021

Five-Minute Brain Workout Dec 01 2020 Taking care of your brain is just as beneficial as taking care of the rest of your body. Research has shown that training games help improve memory, concentration, problem-solving skills, processing speed, creativity, and reasoning. The key to such exercise is to constantly learn and regularly challenge your brain's capabilities with new tasks. Regularly doing series of short, varied tasks will keep your thinking faculties focused and flexible. Five-Minute Brain Workout contains a wide variety of games and puzzles for people who enjoy words and language. There are ten examples of the same kind of game or puzzle with a wide variety of types of each. While the puzzles have specific answers, the games do not, which means you can continue to develop your creativity by doing them more than once and coming up with different answers. And there are enough puzzles and games for a year's worth of challenging your mind. The book's contents can be used in any number of ways: to challenge yourself or simply have fun or as a competition against time or other people. These exercises work in many settings: home, work, schoolrooms, training and therapy sessions, and as an icebreaker at social gatherings.

Selconnifur Apr 04 2021 This incredible story begins when a series of seemingly unrelated events take place along the California Coast. Throw in a few earthquakes of various magnitude and you have a perfect mix to kick-off this story. Max, my main character, is truly a genius, and also a thief. He has begged,

borrowed and stolen the millions that were required to build his fantastic invention, a machine called Pellucidar. He has no intention of paying back his lenders and will not relinquish ownership of the Pellucidar to anyone. The Federal Government, the Defense Department, and every major lending institution, comprise a group of the ultimate victims of Max's financially elaborate plan to finance and use his state of the art invention. Among the crew of the Pellucidar are some of the best minds in their various disciplines. Some of their specialties are in Medicine, Engineering, Biology, and Electronics. Those people are all very close friends of Max, they are all volunteers and consider themselves lucky to be a part of Max's crew. When the largest quake hit California, Max and his entire crew were on-board the Pellucidar when a suddenly opening fissure swallowed Max's great machine . . . the adventure begins. To the surprise of all on-board, they found themselves in a vast subterranean world, miles beneath the earth's outer crust. Many unique species of life, heretofore unknown to man, were discovered there, and a multitude of related adventures happen along the way. During their random explorations, actual contact was established with an alien race. Their technology and machines were far in-advance of the sciences of earth. While on their mission exploration, through an unusual series of circumstances, it was learned that the entire surface of the earth was being consumed by nuclear chain reactions, the end-result of global thermonuclear war. Earth itself seemed to be on Self Destruct. It was only a matter of time until the steadily increasing heat and radiation laid claim to the remnants of the Human Race. With the survival of the Human Race hanging in the balance, this was the time that Selconnifur would prove his worth. The clock is ticking. IT IS THE DAY AFTER TOMORROW AND THE TIME IS NOW!

Tentacles (Cryptid Hunters, Book 2) May 30 2023 Roland Smith makes his Scholastic debut with a middle-grade adventure novel about the search for a mysterious creature--the giant squid--in this sequel to CRYPTID HUNTERS. Marty and Grace O'Hara's globe-trotting parents disappeared while on assignment for a nature magazine, and now they're living with their Uncle Wolfe, a scientist fascinated by cryptids--creatures that appear in myths but haven't been proven to exist, such as the Loch Ness Monster. Wolfe is planning an expedition to New Zealand to track a giant squid, and he's rented a huge (and possibly haunted) freighter for the trip. But someone on board is determined to sabotage their mission--and if Marty and Grace keep poking their noses into things, they might end up the saboteur's next victims!

Greenpeace Captain Jun 18 2022 In over 30 years as a senior captain for Greenpeace International, Peter Willcox has been in the vanguard of the international environmentalist movement. He has led crews into battle for the good of the planet against whale killers, nuclear testing sites and deep sea drillers. The recipient of a Lifetime Achievement Award from The Guardian, Peter has confronted naval warships, including diving in front of a moving destroyer; faced a bombing attack of the iconic 'Rainbow Warrior', resulting in the murder of a shipmate; and endured imprisonment for peacefully protesting Russian oil drilling in Antarctica along with his crew. This is his story.

Contemporary Perspectives on Rhetoric Jan 14 2022 The anniversary edition marks thirty years of offering an indispensable review and analysis of thinkers who have exerted a profound influence on contemporary rhetorical theory: I. A. Richards, Ernesto Grassi, Chaim Perelman and Lucie Olbrechts-Tyteca, Stephen Toulmin, Richard Weaver, Kenneth Burke, Jürgen Habermas, bell hooks, Jean Baudrillard, and Michel Foucault. The brief biographical sketches locate the theorists in time and place, showing how life experiences influenced perspectives on rhetorical thought. The concise explanations of complex concepts are clear, engaging, insightful, and highly accessible, serving as an excellent primer for reading the major works of these scholars. The critical commentary is carefully chosen to highlight implications and to place the theories within a broader rhetorical context. Each chapter ends with a complete bibliography of works by the theorists.

Test Prep, Grade 7 Nov 11 2021 Developed by experts experienced in high-stakes testing, American Education Publishing Test Prep provides the essential preparation that young learners need to achieve success on proficiency tests. American Education Publishing's Test Prep takes the mystery out of what to expect on test day by explaining strategies and techniques for answering different kinds of questions. Multiple tests in reading, math, and language arts provide comprehensive practice in key subjects required for proficiency. Features: ~ Test-taking strategies and techniques ~ Expert practice for required proficiency tests ~ Explains reading, math, and language arts terms ~ Includes answer key and time management tips

Moral Tribes Mar 16 2022 A ground-breaking and ambitious book that promotes a new understanding of morality, one that will help us to solve society's biggest problems. Our brains were designed for tribal life, for getting along with a select group of others (Us), and for fighting off everyone else (Them). But modern life has thrust the world's tribes into a shared space, creating conflicts of interest and clashes of values, along with unprecedented opportunities. As the world shrinks, the moral lines that divide us become more salient and more puzzling. We fight over everything from tax codes to gay marriage to global warming, and we wonder where, if at all, we can find our common ground. A grand synthesis of neuroscience, psychology, and philosophy, Moral Tribes reveals the underlying causes of modern conflict and lights a way forward. Our emotions make us social animals, turning Me into Us. But they also make us tribal animals, turning Us against Them. Our tribal emotions make us fight, sometimes with bombs, sometimes with words, and often with life-and-death stakes. Drawing inspiration from moral philosophy and cutting-edge science, Moral Tribes shows when we should trust our instincts, when we should reason, and how the right kind of reasoning can move us forward. Joshua Greene is the director of Harvard University's Moral Cognition Lab, a pioneering scientist, a philosopher, and an acclaimed teacher. The great challenge of Moral Tribes is this: How can we get along with Them when what they want feels so wrong? Finally, Greene offers a surprisingly simple set of maxims for navigating the modern moral terrain, a practical road map for solving problems and living better lives.

Revolutionizing IT Jun 30 2023 A guide for making information technology work for any company Often corporate IT projects fail because the underlying assumptions about a program are unrealistic. Revolutionizing IT helps organizations find success for their IT projects by showing them how to create and reach realistic goals. A combination of real case histories and examples helps show how this strategy controls both expectations and costs.

The Sara Bellum Review, Vol LII Jan 26 2023 On the surface the SBR appears to be an extended exercise in creative writing. Shakespeare, however, throughout his plays, reminds us that nothing is ever as it seems and this book is no exception. The discerning reader who is willing to go beyond the obvious is likely to find additional levels layered into the text. What you may wonder is this material all about? What is its raison d'être? Does it have peaks and valleys or a place to hang its hat? Why aren't the short stories more complicated than the skills of a cat? Does it fit into a category? In a word, no. Sara Bellum has tried to work within the comfort zone of formula writing but it was not to be. You see, the Review has always been restless and unwilling to buy into the idea that there is only one way to do things. The Review is its own genre and creativity (levity) is its center of gravity. Where does that leave us? In short, the three volumes of the SBR have opted to make a subtly yet far reaching demand of its readers. Our intent is to prompt you to step up your creative efforts (the arts) and thus activate your higher energies. You will not be alone. Such a movement is happening globally and the SBR is proud to be a part of it.

Unreal Engine 4 Game Development in 24 Hours, Sams Teach Yourself Oct 23 2022 In just 24 lessons of one hour or less, learn how to start using Unreal Engine 4 to build amazing games for Windows, Mac, PS4, Xbox One, iOS, Android, the web, Linux--or all of them! Sams Teach Yourself Unreal Engine 4 Game Development in 24 Hours' straightforward, step-by-step approach shows you how to work with Unreal Engine 4's interface, its workflows, and its most powerful editors and tools. In just hours you'll be creating effects, scripting warfare, implementing physics--even developing for mobile devices and HUDs. Every lesson builds on what you've already learned, giving you a rock-solid foundation for real-world success. Organize new projects and work with the Gameplay Framework Master Unreal's units and control systems Import 3D models and work with the Static Mesh Editor Create new landscapes and use Unreal's foliage system Bring characters and creatures to life with the Persona Editor Apply materials and build lighting Integrate and modify audio with the Unreal Sound Cue Editor Craft particle effects and simulate physics Set up and react to player inputs Build levels and entirely new worlds Get started with powerful Blueprint visual scripting system Script an arcade game from start to finish Create events that respond to player actions Spawn Actors during gameplay Design and create action-based encounters Optimize games for mobile devices and touch-based inputs Build menus with Unreal's UMG UI Designer Prepare your game for deployment Step-by-step instructions carefully walk you through the most common Unreal Engine 4 game development tasks. Practical, hands-on examples show you how to apply what you learn. Quizzes and Exercises help you test your knowledge and stretch your skills. Notes and tips point out shortcuts and solutions. All the project files and assets you'll need are available for download, including "before-and-after" files demonstrating initial setup and proper completion for every exercise.

Working Mother Sep 29 2020 The magazine that helps career moms balance their personal and professional lives.

Industrial Organization Mar 28 2023 Peppall's Industrial Organization: Contemporary Theory and Empirical Applications, 5th Edition offers an accessible text in which topics are organized in a manner that motivates and facilitates progression from one chapter to the next. It serves as a complete, but concise, introduction to modern industrial economics. The text uniquely uses the tools of game theory, information economics, contracting issues, and practical

examples to examine multiple facets of industrial organization. The fifth edition is more broadly accessible, balancing the tension between making modern industrial analysis accessible while also presenting the formal abstract modeling that gives the analysis its power. The more overtly mathematical content is presented in the Contemporary Industrial Organization text (aimed at the top tier universities) while this Fifth Edition will be less mathematical (aimed at a wider range of four-year colleges and state universities).

Frank Einstein and the Bio-Action Gizmo (Frank Einstein Series #5) Apr 28 2023 In the fifth book of the New York Times bestselling Frank Einstein series, Frank Einstein (kid genius, scientist, and inventor) and his best friend, Watson, pair up with Klink (a self-assembled artificial-intelligence entity) and Klank (a mostly self-assembled and artificial almost intelligence entity) to compete with T. Edison, their classmate and archrival. This time they're studying the science and mysteries of our very own home planet: Earth!

Chain Store Age Nov 23 2022

Strategic Procurement Jul 20 2022 A company's success is determined by its ability to utilize all its assets. Yet two assets often neglected by the boardroom are the amount it spends on goods and services and the expertise of the organisation's key suppliers. This highly accessible book will help you understand how to tap into these assets to secure competitive advantage. With application to organisations in all industries internationally, Strategic Procurement details why procurement is critical to successful business performance. It explores the strategic value of procurement to business and the potential for significant cost savings through maximising value from suppliers and third-party spend. A lot has changed in the world of strategic procurement. While many developments have served to reinforce the business value of good procurement practices, there are many risks associated with poor procurement. On the upside, procurement's role has increased in many recent mega-mergers. On the downside, there are glaring examples of supply continuity issues triggered by natural disasters; reputational issues related to supply chains of companies like BP and Apple; and the inadvertent role played by suppliers as the weakest link in cyber-crime. This second edition of Strategic Procurement has been thoroughly updated to reflect these developments. Besides real-life case studies, there is a new chapter on procurement's role in delivering successful mergers and acquisitions as well as three new chapters exploring the mitigants to a variety of supplier-related risks. Additionally, there are expanded sections on corporate responsibility, procurement proficiency, good procurement across the organisation, and new ways of supplier collaboration.

Creating Wealth with a Small Business Aug 09 2021 This invaluable business resource will help aspiring entrepreneurs and small business owners understand the risks and potential rewards of starting, buying, or managing a small business.

The Last Dogs: The Long Road Apr 24 2020 A science experiment gone horribly awry has granted Max, Rocky, and Gizmo the unique ability to read and understand human words. Armed with this know-how, they continue to journey south, on the lookout for beacons planted by a trusted friend's owner -- beacons that promise to lead the trio to their people. When the companions reach the ocean's edge, they find a free-spirited beachfront community. Reunited with long-lost friends (and introduced to a new delicacy -- cat kibble), Max, Rocky, and Gizmo gain the motivation they need to keep going. But danger lies ahead. . . . As their travels take them deep into the spooky swampland, can they discover what's driven the humans away? Or have they finally reached the end of the long road? The Last Dogs: The Long Road is the third book in a thrilling series about three unlikely friends on an epic quest to find their people -- and bring them home.
